

# Monty Python's Flying Cockpit

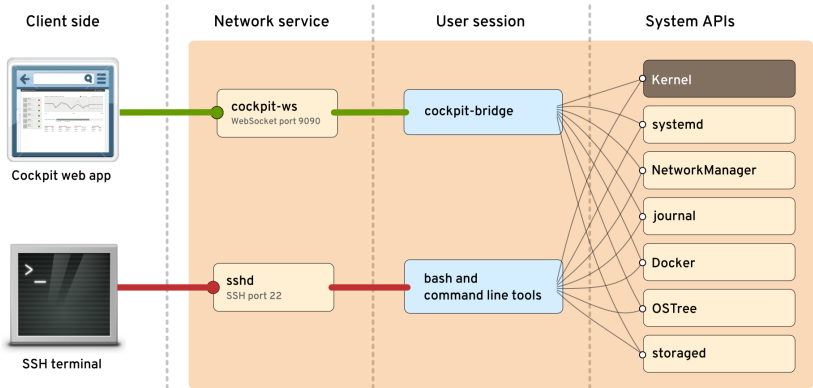

devconf.cz 2023

Allison Karlitskaya, Martin Pitt

# Cockpit intro

- Interactive Server admin web interface
- Setup and troubleshooting for one or a few machines

# Architecture

# Demo: Fedora Server

## Demo: Connect to a CentOS 9 Stream cloud instance

## Making the bridge portable

# Goals

- Be like Ansible: SSH + Python
- Cloud instances, production machines, other distributions
- “Inverse” web app

TODO Lis part: beipack, ferny, etc.

## Demo: Portable bridge

## Rollout plan

- now: Fedora Rawhide, Debian unstable, Flatpak beta
- soon: Fedora 38, C9S/RHEL 9 devel
- never: Debian stable, Ubuntu 22.04 LTS, RHEL 8
